#30,000 FIRE DESTROYS GARAGE

Fire completely destroyed the garage building, equipment and parts departments of the Campion Pipeline garage at Campion Corner, last Sunday evening, September 28.

The fire occurred about 6.30 in the evening of the 28th. It started underneath a truck and although attempts to extinguish it with a large foam extinguisher were made, they were unavailing and the fire quickly spread to the rest of the building. Fire extinguishing systems were used by those on hand to overcome the flames but the large frame building soon became a blaze. However, the fire was controlled to the garage alone, although it was not very far from the office building of Campion Pipeline Co. it was prevented from spreading to the office of the company.

As well as a complete loss on the building, a large parts department was destroyed, all equipment, a welding unit, two trucks and certain other equipment, were a total loss.

The building was erected about three years ago, soon after Campion Pipeline Company moved their office and equipment from Drayton Valley to the location along the new highway, just at that time under construction to Lodgepole. After the company established their office and field headquarters there the former became known as "Campion Corner."

The shop which was destroyed was 24'x56'. It will be replaced with the shop which the company has had at their Grande Prairie yard, which is 24'x36'. The shop will be taken down in sections and moved to Campion Corner as soon as possible. Loss in the fire is estimated at about \$30,000 which was partially covered with insurance. Field Superintendent is Fred Gross.

MAN KILLED IN ACCIDENT NEAR BUCK CREEK

Mr. James Miller, aged 48, of Buck Lake, was killed in a motor vehicle accident five miles north of Buck Creek when the '56 Dodge 2 ton he was driving was in collision with a single pole truck driven by Mr. Ralph Schurman, of Drayton Valley.

An inquest into the accident has been called by Coroner Dr. Brooks. Time of the inquest has been set for 1 p.m. October 8, in Drayton Valley.

TRUCK RUNS OVER GIRL

Linda Connell, 7 years of age, was run over by a truck and seriously injured the afternoon of Saturday, September 20. The accident occurred on the road west of Drayton Valley. Little Linda was walking with three other children, and ran across the road, just as the truck came over the hill, according to reports, the truck tried to dodge the child at the same time the child saw the truck and tried to dodge it, with the result that she was run over.

Linda sustained severe injuries to her leg, and a severe concussion of the brain. She appears to be slowly making progress towards recovery, however. She is under the care of Dr. Speakman, neuro-surgeon, and other brain specialists, in the Royal Alexandra hospital. Her father, Roy Connell, is employed with Bottleneck Pressures. According to last reports the child had not yet regained consciousness.

CHAMBER OF COMMERCE TO MEET

A special general meeting of the Chamber of Commerce has been called for the evening of Friday, October 3rd. It will be held at 9.15, in the Royal Bank building.

Main purpose of the calling of the special meeting is to elect a new President of the Chamber, to fill the place of Adrian Meier, who recently became Mayor of Drayton Valley by acclamation. Mr. Meier will take over the office of Mr. Pickup, after the October 15th elections.

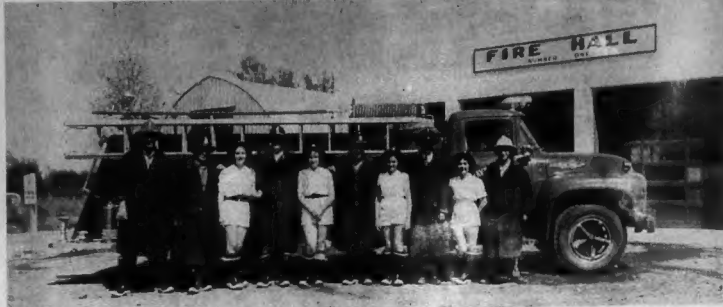

Other items on the agenda for discussion are a proposed Trade Carnival and a fire ending of the new bridge across the Saskatchewan River. All members of the Chamber of Commerce are urged to be present at this meeting, as well as all those who may not be members of the Chamber at present, but plan to join.

ELECTIONS SET FOR OCTOBER 15

On October 15, polls for Drayton Valley's election for councillors, and the vote on By-Law No. 112, will be open from 10 a.m. to 7 p.m. in Community Hall.

Those qualified to vote in the election of councillors are all those whose names appear on the general voters list. Those entitled

(continued inside)

WITH FIRE PREVENTION WEEK TO BE STAGED NATIONALLY NEXT WEEK, OCTOBER 6 to 11, Drayton Valley merchants and businessmen extend their thanks to the Drayton Valley Volunteer Fire Brigade, who, under the capable leadership of Fire Chief Clauson, have done a very fine job in responding to the fire-call at all hours of the day and night.

THE ABOVE PICTURE was taken in front of the Fire Hall of the group who participated in the RODEO PARADE, August 2, 1958. Seen in the picture, from left to right, are Len Charbonneau, Morley Haggerty, Joan Vander Weest, Charlie Twistle, Evelyn Kynock, Elmer Allenbrand, Maureen Kirkpatrick, Ben Harold, Joan Koopke and Don Grismer. Curt took the picture, which was taken just before the truck entered the Parade.

OTHER MEMBERS OF THE FIRE BRIGADE not in the picture are, Larry Gano, Ken Wardlow, Frank Harris-on, Roy Steeves and Don Mallico.

FACTS ABOUT FIRE: "Why Fire Prevention Week?"

In the last decade fire has killed more than 100,000 persons and burned and disfigured many hundred thousands more. Each year about 11,300 people in the United States and 600 in Canada die needlessly in fire, and more than twice that number are severely burned or disfigured for life.

Fire Prevention Week is set aside to emphasize the year-round need for greater attention to fire safety.....to stress again that very nearly all fires are preventable, that human carelessness is the guilty party in almost every fire case.

Last year, every day, in the U.S. there are about 1400 home fires...31 deaths by fire...115 store fires...100 factory fires...110 barn fires...11 school fires...11 hospital fires...9 church fires. The figures are proportionately the same, or a little higher in Canada.

HOME FIRE CAUSES: Most common causes of home fires: smoking and matches...17.2%; heating and cooking equipment...13.7%; electrical causes...12.9%; rubbish, ignition source unknown...7.9%; lightning 5.9%; flammable liquids, dry cleaning, painting, etc...4.2%; children and matches 3.6%.

Most deaths by fire tragically involve families in the home. Many are suffocated by smoke and fire gases without being actually burned. Many deaths...too many...are caused by people falling asleep while smoking, or re-entering burning homes to rescue pets or personal possessions.

Says Fire Chief Curt Clauson: "Don't wait for the fire to start to check fire hazards in your home. Are attic, basement, closets, and garage free of clutter and rubbish? Are furnaces and stoves in good repair and placed well away from combustible walls and ceilings? Are frayed electric cords replaced promptly? Are gasoline and other inflammable liquids stored safely?"

These are some of the questions you should ask yourself. And remember, your fire department will help you spot home fire hazards. Call them today and ask them to inspect your home for fire safety.

PLANNING IN ADVANCE for fire emergencies would save 85% of the lives lost annually in home fires...and home fires take many lives each year. Plan escape route from every room in your home. Rehearse them with your family, including children. Rehearse them regularly. It may save all your lives.

AND REMEMBER: DON'T GIVE FIRE A PLACE TO START.

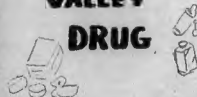

EDITORS' NOTE: This week we acknowledge Fire Prevention Week, October 6 to 11, annually publicized by the National Fire Protection Association.

We too, on the PEMBINA NEWS ADVERTISER, take pleasure in paying tribute to the efforts of Drayton Valley Volunteer Fire Department, whose members serve their community well.

ELECTIONS SET FOR OCTOBER 15 (continued from front page)

to vote on the money by-law #112. will be found on the Proprietary Voters list.

GEORGE GAGNE LAID TO REST.

George Levi Gagne was laid to rest in the cemetery in Lac La Poudre on Thursday, September 18, following his sudden passing away on Sunday, September 14. Mr Gagne was visiting with friends in Drayton Valley at the time of his death, apparently of a heart attack. He was 43 years of age.

Left to mourn their loss is his widow, and eight children; Alan, Sade, Eldon, Patricia, Ethel, Ruth, Louise and Shariene. His father survives him also, at Lac La Poudre.

Mr Gagne was a machanic, and was employed with Shell Service Station at the time of his death. His family were living at Moon Lake at the time.

INQUEST INTO DEATH.

On September 18 an inquest into the death of Arthur F. Tester was held in an accident on Rig No. 28, for Regent Drilling Company in the Cynthia area.

Jurymen at the inquest were A. Meier, foreman, Lou Irard, Bill Copeman, Jake Durkson, Lorne Stevenson and Rex Burrows.

The finding of the inquest jury was as follows:

"We find that Arthur F. Tester came to his death accidentally. He was killed while working on Rig No. 28, for Regent Drilling Company, in the Cynthia area by the collapse of the Drill Pipe Rack that was assembled in such a manner as to be unsafe to persons employed."

It is recommended that some specified person be responsible for safe erection of each separate piece of equipment used on drilling rigs."

FORMER DRAYTON VALLEY TEACHER WRITES:

I would like to subscribe to the "Drayton Advertiser" for a year. I'm teaching in Peace River this year and find I really miss the Drayton news.

Hope everything is fine in Drayton. I had a most enjoyable holiday in Mexico, with my girl friend. We drove to Tia Juana, and then flew into Mexico City. It certainly was an experience. We thoroughly enjoyed it...bull-fight and all!

Would you let me know about the Advertiser?

Thank you, Miss F. Polinsky, Peace River.

c.k. Polinsky, the P.N.A. is headed your way. Please send us \$1.50 for same. Ed.

THE OBSERVATION TOWER.

Among the latest of the legends of Manitoba D.P.'s is to Alberta, the Land of Promise (Social Credit Five-Year Plan Promises) is the wife and children of our good town Secretary-treasurer, (whom we stole from Winnipegosis, Manitoba), Bill Johaneson. Reading from top to bottom the arrivals are: Rex Johaneson (Phyllis) Robin, 11; Harry, 10; Brenda, 8; Alena, 5; and Derrick, 2 months young. Welcome to Drayton Valley, folks.

THE OBSERVATION TOWER. (cont.)

Lyle Beckett, with the assistance of Mr. Hamilton, former D.V. oldtimer, tore down the old house to build a chicken house. Under the floor they found an old lumber bill dated March 31, 1936. Lumber was listed on the bill at \$8.50 per thousand. 22 years later, when they bought more lumber to finish the c.h. they paid \$100. per M for it. According to Mr. Hamilton the lumber at that time would have been brought in from across the Pembina River, at Easyford, where there was a sawmill at the time.

E.A. Featherstone, (Ed) of Electrical Contracting brought his family to Drayton Valley from Calgary recently. Mr. Featherstone is superintendent for the company in this area. He was with the company for a number of years in the famous copper mines of Cyprus, listed as one of the most stable economic factors on that unbalanced island. The copper mine goes back to ancient days, Phoenician traders bought copper there before the Christian era to sell in the world markets.

Mr. Featherstone said it rained a lot on Cyprus during the winter season, and he found the mud very similar in viscosity to our famous Drayton Valley mud. He should feel right at home.

IT RAINS ALIKE ON THE JUST AND THE UNJUST DEPT. Many were wondering just what good the rain was had about three weeks ago was this late in the year. We were talking to Ed Hines the other night and he had been plowing all week. said it was too dry to plow before it rained.

There is built a platform in the White Bull Restaurant at Coffee Time, when the PFL boys get together there to dig that last ditch or run a couple of hundred feet of casing, but there is now a genuine white bull, (ceramic, of course) standing proudly on top of the canopy over the coffee urn.

FINAL GAMES OF SOFTBALL SEASON.

In the final play-offs between Mobil Oil and Pembina Pipe Line, Lodgepole, the 1st game was taken by Mobil. At Drayton Valley. The 2nd game was played at Lodgepole with Lodgepole winning 9-3, after Mobil pitcher Mary Jones developed a sore arm. The deciding game was played at Drayton Valley, on September 17, with Mobil winning in the top half of the 7th, 9-1. It was a pitchers' duel all the way in both games. The score was tied 1 all till the top of the 7th inning when finally Nora Herriot, PFL pitcher got a little wild and threw two past balls that scored two runs for Mobil. Then a timely hit by Mobil sent the ball to left field where the fielder bobbled and overthrew second. Mary Jones then held PFL scoreless for the rest of the inning.

Mobil Oil became the winners of the Hotel Tropic Pitching tournament the games had been very good on both sides; fielding, too, was very good, the games were rated as real championship events. Good crowds were on hand for each game to support both sides.

Of particular note was the very good playing by Mobil Oil player Al. Morris, who, in spite of the handicap of playing with one arm, turned in some first-class ball playing.

It is expected that interest will be even better in next years series.

This week's contribution to our series of articles by Ministers of Drayton Valley is made by the Reverend John Karlan, serving Remans Lutheran Church in Drayton Valley; Mr. Karlan also serves Immanuel Lutheran Church, in Tomahawk.

MANS GREAT NEED

What is mans greatest and foremost need? Security in life? Assurance of enough food and clothing and other things? All important as these may be in the eyes of man, yet they are not his foremost need.

Mans foremost need is to be right with God. Man by nature is not right with God for the disease of Sin afflicts all. Sin is not only a slight blemish or blot in our nature, but a total corruption, an entire spiritual death and complete separation from God. Sin is seen in mans perverted self love, the evil thoughts and actions flowing from the natural human heart, rebelliousness against God and especially against Christ.

Man cannot escape the consequences of sin by himself. These are all the miseries and sicknesses of life, an accusing conscience, guilt before God, and finally temporal death, and then eternal death in hell. Many are not at all concerned with sin. Others attempt to drown sin in a wild or loose way of living. But all to no avail. Sin remains.

Christ Jesus, God's Son and Mary's Son, by his life and death and resurrection and Ascension back to the Father, has as our Substitute brought about the all sufficient atonement for sin. The price has been paid 2,000 years ago. The receipt is made out to the world of lost sinners. In the blood of Christ alone can man find the answer to this greatest need-how to be right with God.

Rev. J. W. Karlan

HARVEST MOON DANCE

The Oil Wives Association of Drayton Valley held a "Harvest Moon" box social at the Community Hall on September 26. The Lorenzo Orchestra provided music including some square dancing and some old-time dancing that was greatly enjoyed by the partys.

Dancing was from 10 to 2 - or so, with an intermission at midnight for supper. Each lady had brought a box lunch for two, and the men lined up to draw numbers and names. A great deal of work and thought had gone into both the boxes and their contents, and everyone enjoyed the affair.

This is the second social affair held by the Oil Wives Association of Drayton Valley, under the direction of Program Chairman Danita Boling and her

right-hand man Shirley Polchard, with the help of committee members such as Charlotte Anderson, Kathy Shaw, Betty Glensiek, Peggy Arkenstall, and the others. Like the Cotton Ball held in June, this Harvest Moon dance was an unqualified success.

OILWIVES DINNER MEETING.

The September dinner meeting of the Oil Wives Association of Drayton Valley was held Sept. 29 in the Cardium Room of the Drayton Valley Hotel. 98 members and 14 guests were present. Joyce Bryan was at the Piano, and Margaret Chisolm said Grace. After the dinner, Members of the Executive made their reports, and the resignation of Secretary Marian McOsker was accepted. She is leaving the area. Those in charge of special interests groups - Bowling, curling, music, pingpong, learning to drive - asked interested members to meet them after the business meeting. Barbara Casey was appointed Special Interests Chairman to handle these groups.

Rather than conflict in meeting nights with Home and School, it was decided that Oil Wives will change its meeting date from the last to the second Monday of each month, commencing November 10.

Membership limitation has been raised from 125 to 150. Anyone interested in being placed on the waiting list should contact Jane Just at 306.

It was decided that a public address system will be purchased by Oil Wives for use at their meetings and other functions and to be rented to other organizations on occasion.

By-Laws of the Oil Wives Association of Drayton Valley were approved, and this local group will now be a member of Oil Wives International.

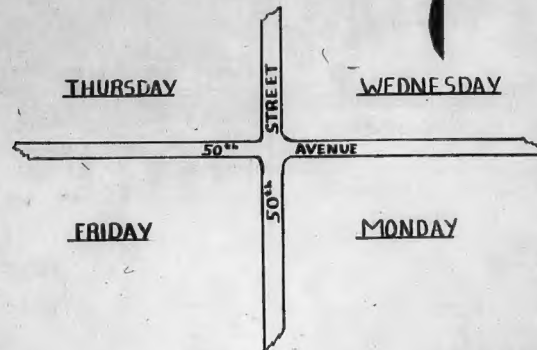

The business meeting was adjourned at 9:15 with the singing of God Save The Queen, and the group turned over to Jane Shouldice, in charge on entertainment for the evening. Dawn Goebel did a pantomime to recorded music, and Evelyn Rundle pantomimed and eager - but easily distracted housecleaner. Jane Shouldice narrated a pantomime skit which co-starred Gwen Smith, Louise Miederneyer, Vivian Peterson and Barbara Casey, and featuring behind the scenes handling special effects Mollie McDonald and Faith Christion. Mrs. Christion was also co-producer of the presentation with Mrs. Shouldice.

The final entertainment of the evening was a fashion show by female impersonators Pat Shouldice, Roy Miederneyer, Len Charbonneau, Duncan Larballester, Bob Sumner, Keith Peterson, Al Krebs, Garth Shaw, Scott McDonald and Doug Polchard. Ken Bowling acted as wardrobe mistress, and it was a hilarious affair, narrated with sly wit by Janet Krebs....

LODGEPOLE SCHOOL.

Construction on the new Lodgepole School is proceeding rapidly. Whitham Construction have the contract. When finished there will be 6 classrooms and auditorium.

PRESENT GARBAGE PICK-UP SCHEDULE FOR
DRAYTON VALLEY.
(BUSINESS DISTRICT FIRST THING
EVERY MORNING.)

PART OF THURSDAY AND ALL DAY TUESDAY AND SATURDAY:
TRAILER COURTS & GARAGES.

A letter from the Mayor.

On October 15th., you will be presented with the opportunity to endorse the first stage of your recreational program by voting YES to the completion of our Recreational Centre. Due to this year's building boom it is felt that this can be accomplished from current 1958 income without CAUSING ANY INCREASE IN THE 1959 MILL RATE.

On previous questionnaires the ratepayers of Drayton Valley have indicated overwhelming approval of a Recreational program. For many of these activities the Recreational Building will be needed, and it has been the Council's opinion that the program to date has been in accord with the direction you have given.

The eventual Recreational Program will also encompass a hockey rink, renovated Skating Rink, various crafts, Badminton, Volley Ball, Kiddies Play-ground facilities, Toboggan Slide, beautifying of Park Areas.

The Recreational Board, under the direction of Mr. G. Flynn, will operate under the guidance of Council towards this end, and will welcome any ideas from interested persons.

I therefore urge you to consider the importance of our whole program and give the Council not only your opinions and guidance but your mandate to carry it out.

VOTE: (Yes X) For By-Law No. 112.

And remember, this can be accomplished without affecting the 1959 Mill Rate.

Howard W. Pickup

MAYOR: TOWN OF DRAYTON VALLEY.

The Super '58' Holiday Sedan Coupe is one of two new body styles offered by Oldsmobile in 1958. The Oldsmobile has been completely restyled, with more glass area, passenger and luggage space and a host of engineering and accessory advancements. Steering is easier, and there are new Air-Scop brakes on all four wheels. Two new engines will mean greater operating economy. The windshield, with up to 578 square inches more glass, cuts deep into the roofline to give an unobstructed view of overhanging traffic signals. The wide, heat-resistant band across the top of the tilted rear window reduces heat penetration by about 84 per cent. Sculptured twin booms sweep full length along the body, highlighting Oldsmobile's unique two-tone styling for 1958.

Automatic Top Burner makes

MODERN COOKING
SO CLEAN
WITH GAS!

The "Burner with a Brain" turns itself up and down at exactly the right moment, ends pot watching forever! Pots never boil over, never burn or smoke up your kitchen. No more smelly cooking vapors from pots boiled at too high temperatures... no more steam to condense and stain walls and woodwork. See the "Burner with a Brain" — another cleanliness feature of the modern GAS ranges at your dealer's now!

NORTHWESTERN UTILITIES, LIMITED

DRAYTON VALLEY HIGHLIGHTS.

BY: Edith Deby.

Mrs. Charles Dion underwent surgery in an Edmonton hospital last week. She is reported to be making satisfactory progress and should be home soon.

The Social Club of Pembina Pipe Line Ltd. arranged for a mixer party last week. Staff members recently transferred from Edmonton were present to meet the Drayton Valley staff.

Mr. Jampolsky is expected to come to Drayton Valley soon to take charge of a grade ten class. Mrs. Tyler is substituting until he arrives.

Had a card from Mrs. Zolmer this week, written from Reno, Nevada. She and Mr. Zolmer are having a fine time on their holiday. They plan to follow the coast route from San Francisco to Seattle on their way home.

Pupils from Mrs. Wollschlaeger's class entertained in her honour Monday evening. Mrs. Wollschlaeger had been in hospital and her pupils arranged a "Welcome Home" party.

Mrs. Inez Oscar, Easyford, is most anxious to have a snapshot of the W.I.I. float for the scrap book. If any of you who were busy with cameras on Rodeo Day have such a picture the W.I.I. would like very much to borrow your negative.

Mrs. Larballester and staff held a work bee at the library on Thursday evening to catalogue books received in the recent book drive. Among the many fine books donated was "Home Country" by Ernie Pyle. Wonder what lucky child will be the first to get Richard Halliburton's "Flying Carpet"?

Miss Sherry Scott, daughter of Mr. and Mrs. Jack Scott, is working in Edmonton. She has a job in the Blue Cross office.

Mrs. Chalmers has just returned from a month's holiday at various Eastern cities. Mrs. Chalmers enjoyed Montreal, St. John and Niagara Falls, but thinks New York altogether too big and bustling.

THE OBSERVATION TOWER.

Drayton Valley's post-office is turning over an average of \$5,000 per day in stamps, money orders, etc. Guess most folks have seen the red postal meter box in front of the p.o. where one can buy their stamps. The meter is set so fine it will reject everything but U.S. and Canadian quarters. It can be set to where it will reject U.S. quarters too. A very good idea too, should Texas ever invade Alberta in even greater numbers.

Mrs. Bedard and daughter Lucille left this area recently to go to Victoria to keep house for Mrs. Bedard's brother. The Bedards have been here for 5 years, keeping house for Conrad Kopstad.

Mrs. Louis Hobla left recently to join her

(Next column)

LARGEST GAS WELL:—What could be the world's largest gas well has been struck at Berland River, 160 miles northwest of Edmonton. The well was drilled by B/A Oil-Shell Oil on a jointly-held reservation block. The pay zone in the productive reef is the thickest D-3 in Canada's gas drilling history.

THE OBSERVATION TOWER

A recent new arrival is Karen Martha Kelly, daughter of Mary Kelly, born in Royal Alex hospital, Sept. 3, weight 5.14. Karen's mama, Mary, did artwork on the P.N.A. for some time; including the artwork on the 1958 Rodeo Edition.

George Leckie, electrician for Goliad Company, recently moved into a new house. The Leckies' have three children.

John Moody, electrician with Hume and Rumble, got a suite in the Leckie house.

Returnees from a long trip to So. Cal. are the Clyde Browns, Mr. and Mrs. They were accompanied by Mrs. Swap of Rocky Rapids. They drove down to Willow Creek, on Highway #101, near Eureka, Calif. to visit Clyde's brother. They got as far down the line as Sacramento and Fresno, before returning up 99 to Oregon, where they took 95 to Spokane, and so home.

Another recent returnee is Germaine St. Louis, chief operator in Drayton Valley's telephone exchange. Germaine drove down as far south as Florida.

Visiting with the Allen and Ralph Boles families in Drayton Valley was Mr. Boles, Sr. of Rocky Mountain House. Mr. Boles, Senior, recently visited his mother in Carberry, Manitoba, who passed her one hundredth birthday a year or so ago.

the son of Mrs. M. L. Dill, born Sept. 18, weight 9 lb. 14 oz.

FOR WEEK STARTING September 21 to 27, the daughter of Mrs. Regina Anderson, born Sept. 26, weight 7 lb. 8 oz.

VALLEY DAIRY CHANGES STAFF.

Erni and Claus Beings, former deliverymen for Valley Dairy left recently to take over the store formerly known as Jack's Supermarket in Drayton Valley.

In charge of local delivery and wholesale delivery now is Earl Tomlinson who is well known in Drayton Valley where he worked for Schlumberger here, working with Erni in delivery is Elmer Henderson, Niel Holmes, and Lloyd Bobyk.

Mrs. Tomlinson, who worked in the Drayton Valley post-office previously, will take charge of telephone answering.

Extensive remodeling has been done in the plant to make room for an ice cream storage plant, as well as the refrigerated plant where milk and butter, etc., is stored.

Valley Dairy, one of a string of several dairies, pride themselves on prize-winning milk.

COUNCIL ANSWERS QUESTIONS REGARDING BY-LAW-112

Several questions regarding By-Law 112, have been asked since last week. We, the Council, feel duty-bound to set out the answers at this time, in case these questions may be in the minds of others also:

1. **WHY SPEND MONEY ON THE CURLING RINK?**
This building is not the "Curling Rink". This is the Drayton Valley Recreational Centre. It will be available to any community groups for a variety of activities. In this respect the Recreation Board envisages many plans, including roller skating, Volley Ball, Basket ball, table tennis, and other sponsored activities. It will be rented to the Curling Club during curling season at \$1,500.00 per season; this money to go into recreation funds of the Board. It may be leased, if available, to any organization for any approved program or activity, by the evening. All revenues collected from the many expected activities will add to recreation funds.
2. **ARE WE PUTTING IN ARTIFICIAL ICE?**
We are not putting in artificial ice. We have agreed to permit the Curling Club to install artificial ice in our building in return for their agreement to install a concrete floor at their expense to make the building of year round value to the Recreation Board.
3. **WHAT IS THE RECREATION BOARD?**
In any recreational program the first thing the Alberta Government requires is the setting up of a Recreation Board.... responsible for the recreation and acting under authority of Council and responsible to Council. It is not responsible for the curling. The present newly formed Recreation Board is not to be confused with the now inactive "Recreation Association" which was associated with the original efforts at building a curling rink.
4. **WHY DID THE COST EXCEED \$10,000.00?**
In 1957 the ratepayers endorsed the building of a \$30,000.00 building, approving the provision of \$10,000.00 to this end. The balance was to be realized from contributions. Promised contributions from various companies did not materialize to the extent indicated in the original surveys. The choice arose... to stop work on the building... or to protect the original investment and complete what had been started.

It is not the wish at this time to point any blame. It is only the wish to face the fact that the Town takes over a building which is only partly paid for, and requires some finishing. It is our opinion that with premises at a premium in town we will certainly find that this building will provide much of the needed space for recreational plans as well as recreational income, to provide further activities for all age groups.

THE METHOD OF PAYMENT FOR THE AMOUNT OUTSTANDING AGAINST THE RECREATIONAL CENTRE, AS OFFERED IN BY-LAW 112, IS MERELY THE MOST EXPEDIENT, MOST SATISFACTORY AND STRAIGHTFORWARD METHOD OF HANDLING THIS PROBLEM.

IT IS ONLY POSSIBLE TO OFFER THIS SOLUTION DUE TO AN INCREASED INCOME THIS YEAR FROM OUR BUILDING BOOM.

If there are any questions please contact any of the Council or the Mayor.
Signify your approval of this action by voting YES- I, to Bylaw 112.

THE DRAYTON VALLEY TOWN COUNCIL

LEGION MOVES IN BUILDING. Drayton Valley Canadian Legion moved in their large building from Logeapole, which will be remodeled into a spacious and attractive hall for the use of the Legion. The building was the former Star Cafe, in Logeapole. (Next column)	It has been located on the Legion lot, just west of the Conservation Board office. Drayton Valley Legion will also start the ball rolling again this year in the Red Cross Campaign. The Red Cross drive will be conducted by the Legion in cooperation with other civic groups in this area.
